

# PRODUCT DATA SHEET

PUNCH CROSS SECTION

WAGNER 007 SERIES

THE ORIGINAL

**007** SERIES

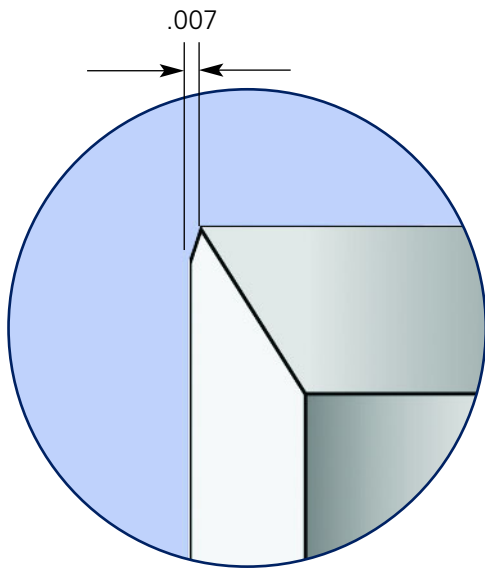

## STRAIGHT CUT PUNCHES

- 4130 High Carbon Steel
- Minimum Support, Inside Bevel Punch
- Reduced wall thickness allows for the use of larger springs when needed.
- A cut above a straight O.D!

### For Sharp Accurate Cutting!

Design for the Printed Circuit and Membrane Switch Industries as well as other diecutting requiring a sharp, straight cut. FW&Son's 007 Series punches cut cleanly with much less pressure than a straight wall (straight o.d.) punch.

### Cutting Edge Technology from the punch experts at Wagner!
