

■ **Wagner Coilkeepers™**

The best way to safely keep your steel rule coils.

Wagner Coilkeepers come 6 to a pack and securely bind steel rule coils or even strips of steel rule easily - without the use of tools!

Coilkeepers are a unique system of nylon "hook and loop" fasteners especially-designed to keep coils of steel rule securely strapped together. **Coilkeepers** are easy to use, and when used properly, can be reused for hundreds of wraps. Applying **Coilkeepers** is quick and easy, and requires no special tools, simply wrap the coil squarely at approximately three spots around the coil at 120° intervals. For best results keep **Coilkeepers** at least 4 to 6 inches away from coil ends and do not slide across sharp rule edge. **Coilkeepers** also work great in storing bundles of strip steel rule too!

- 6 **Coilkeepers** per pack, enough to do two coils of steel rule (3 in safety orange and 3 in safety red)
- Overall length of **Coilkeepers** is 12 inches by 5/8" in width.
- **Coilkeepers** will securely wrap a standard 2 PT x 328 FT coil of steel rule.
- **Coilkeepers** are reusable, and require no tools to install.

For safety always wear Wagner Kevlar Gloves and Wagner Safety Glasses when handling steel rule!

COILKEEPERS™
You won't find a better keeper for the price!
