Böhler H 75 Cutting Rule

- Very hard body and a soft ductile outer skin.
- A perfectly shaved bevel.
- Extra hard cutting edge
- Highest stability and 90° bendability.
- Uniform straightness.
- Uniform height and width.

Applications:

- Gaskets
- Rubber
- Plywood
- Cork
- Felt
- Beer mats

Böhler Supreme Cutting Rule

- Special edge coating for smoothness and dust-reduced cutting.
- Particularly suited for recycled cardboard.
- Reduction in cutting force required.
- Reduction in friction between the cutting edge and the material being cut.
- Substantially increases the service life of dies.

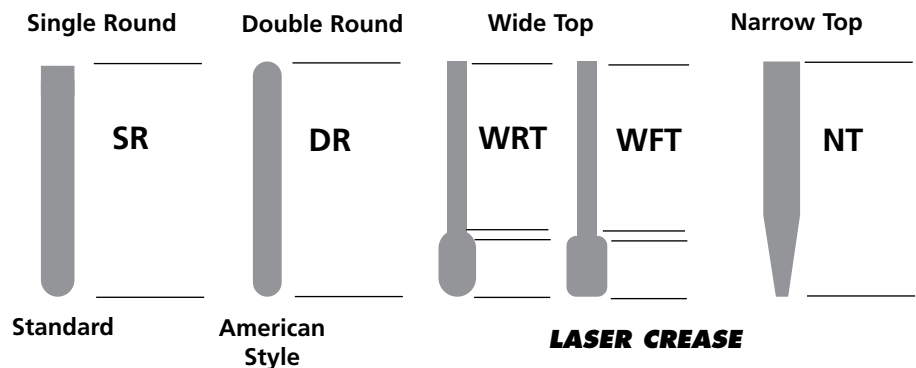

Applications:

- Excellent for long run applications like solid carton packaging in the food and pharmaceutical and tobacco industries.

Böhler Creasing Rules

- Very smooth crease head surface.
- A perfectly radiused, smooth profile.
- A flowing continuity from the radiused profile of the side faces of the rule.
- Minimum eccentricity.
- Rule thickness complimentary to cutting rules.
- Supreme - coating available.
