

XTC Plastrix 12MM Matrix

Syntrix is now "XTC" again!

C&T **CHANNEL** CCM

XTC Plastrix 12MM is the same, tried and proven XTC also formerly known as Syntrix! **XTC Plastrix 12MM** joins the family of Plastrix matrix, available in three base widths 5mm, 8.75mm and now 12mm. All Plastrix is polyester film (Mylar®) based, with PVC profiles 100% bonded, with a strong PSA adhesive with finger-lift for quick, easy and accurate installation. All Plastrix matrix is skiveable, and features a precision-bonded locator / applicator that holds tightly onto the crease rule and strips cleanly from the matrix. You can even perf-score with Plastrix through it's mylar base, without damaging the knife!

All Plastrix matrix feature a polyester film base and strong finger-lift PSA.

Plastrix is just one of Wagner's full-line of quality matrix for just about any creasing application!

Call or email for available sizes in all styles, and Off-Center versions too!

CCM Matrix Miter Pliers - register an exact mitered cut. Blade cuts matrix and the finger lift tape. Heavy duty enough to cut the largest metal-based matrix, yet precise enough to cut small pieces! Anvil can be rotated to reduce wear, new blade and anvil are easy to install, and available separately
