

# Channel's Matrix Miter Pliers

Tough, durable solution to accurately cut and miter all types of creasing matrix.

Easily replaceable Blade!

Brass anvil can be rotated to reduce wear, and can be replaced easily!

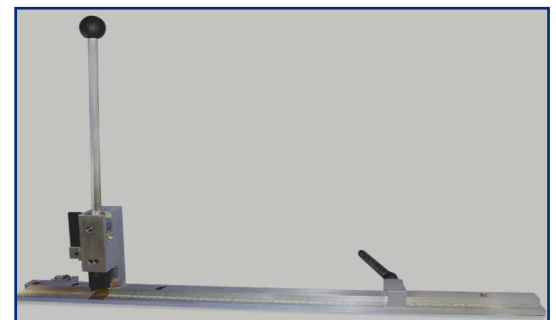

Simply remove a few Allen-head screws to replace the brass anvil and blade (available separately) as needed.

**Channel's Matrix Miter Pliers** is a tough, reliable and rugged tool. Made in the USA using only steel, aluminum and brass components. Designed for easy operation and accurate miters. These pliers feature aluminum guides that align and hold the matrix for a great mitered cut. The solid brass anvil provides a solid and durable backing for the cut, and can be rotated to prolong its durability.

Perfect for all matrix with 5mm, 8.75mm, 12mm, 15mm and 20mm bases. Smooth, easy action provides clean easy miter cuts, in plastic, fiberboard or even steel based matrix. So sharp, it cuts the finger-lift paper backing perfectly, yet tough enough to last for years and years.

Plus, should they ever need replacement, blades and brass anvils are available, and are easy to replace - just a few screws and you've got what amounts to a new tool!

## Also Available:

**CCM Bench Miter Press** - This rugged bench miter press can miter two ends of matrix at one time! Reversible cutting anvil for long life. Guides for both 5 mm and 9 mm width matrix.
