

Countamax[®] Matrix

Phenolic-based matrix - Easy to use, with the long run durability of phenolic counters.

Countamax is a revolutionary new product that offers the longevity and reliability of a routed phenolic counter, with the ease of application of conventional matrix. Countamax's tough, resin-based material rivals the hardness and flexibility of routed phenolic counters, without the costs for routing and processing! It installs quickly and precisely using Countamax's high quality applicator right on the press! **See side 2 for available sizes and specifications.**

The durability of phenolic counters with the ease of matrix!

Benefits of Countamax:

- Lower cost than routed phenolic counters
- No need to be dependent on die maker to rout counters, a durable Countamax counter can be precisely applied on-press in minutes!
- Phenolic counters can be fragile and break resulting in press down-time...

Use Countamax to repair broken phenolic counters - right on the press! Reduce downtime!

Multi-Cut Pliers - great for cutting any non-metallic matrix or die ejection rubber an economic alternative to high cost cutters! Comes with 4 blades +storage cartridge!

CCM Matrix Miter Pliers - register an exact mitered cut. Blade cuts matrix and finger lift tape. Heavy duty to cut metal-based matrix and precise enough to cut small pieces!
