

Cutawl Saws

Specialized for precision cutting of kerfs on flat & rotary die boards.

Wagner can supply a wide variety of blades for the Cutawl K-12 saw.

Cutawl K-12 Saws

Precision built saws designed for cutting intricate patterns into sheet material like plywood, and excellent for cutting kerfs into both flat and rotary die boards.

Cutawl saws can use a variety of blades in a variety of sizes and styles, depending upon the type of material being cut.

Wagner can supply Cutawl K-12 saws and all of the accessories and blades. Curved base plates for cutting rotary die boards are also available.

Contact your Wagner location for details.
