

Henderson Printing Plate Storage

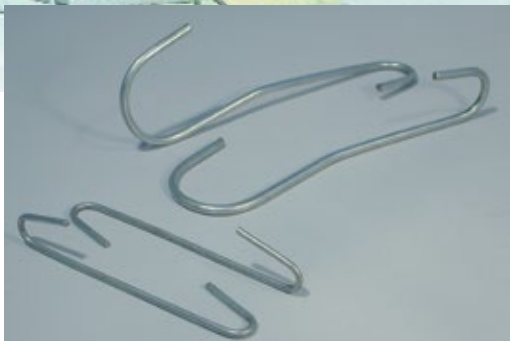

Safely, securely & efficiently store mounted & unmounted printing plates.

Henderson Mounted & Unmounted Printing Plate Storage Units

Storing mounted & unmounted printing plates can be an issue. If not stored properly they can sustain damage. Henderson Printing Plate Storage Units can accommodate up to 560 printing plates, and they store using our unique 90-degree offset "S-Hooks" which hook into our specially-drilled beams. With a foot print of 12' wide x 4' deep x 14' tall, these Printing Plate Storage Units can store a lot of plates, using very little floor space. And our handy label system, allows for easy indexing so when needed, plates can be retrieved quickly and efficiently. Plus, Henderson also has specialized transport carts to safely and securely move plates to and from storage to press and back.

These Henderson Printing Plate Storage units feature MIG welded, all-steel construction and with a tough powder-coated finish to resist corrosion. These units are sturdy, durable, easy to assemble and are a valuable addition to any facility.

Printing Plates hang using Henderson's unique 90-degree offset S-Hooks.

Available in two sizes:

Small: 4-7/8" overall length

Large: 7-1/4" overall length

700 hooks come with the units.
