

PlateWipes from Wagner

18" x 18" Micro-Fiber Towels for clean & residue-free plates!

Wagner PlateWipes help get plates clean and residue free! Use before applying matrix or other counter materials that use pressure-sensitive adhesive (PSA) or other adhesives.

Oil, grease and residue are a counterplate's worst enemy, causing adhesives to slip and counters to move. Use a fresh PlateWipe with plate cleaner as the last step before applying matrix or counter to plates, ensuring a clean, oil and residue free surface to optimize adhesive performance.

Great for general cleaning around the shop too! PlateWipes from Wagner Die Supply are a handy 18" x 18" in size, are durable, reusable, machine washable and soft. Available in 12-packs

PlateWipes feature a super soft surface that's durable and lint-free. Use with your favorite cutting plate cleaner to ensure a residue-free and oil-free surface for counter material or matrix to adhere to.
